

Visit of Siracusa

Guided tour of Siracusa, its monuments and main sites

The city of Syracuse is part of the Unesco Heritage, and is an excellent starting point to visit the largest and most powerful Greek colony in Sicily: the Archaeological Park of Neapolis.

The visit will begin with the splendid Greek Theater, the Roman Amphitheater and follow the Latomie del Paradiso and the suggestive Orecchio di Dionisio.

We will continue with the historic center of Ortigia, where you will be enchanted by the splendid Piazza Duomo and its Cathedral whose face in perfect Sicilian Baroque style was in the past a sacred temple in Doric style.

Afterwards, continuing along the delightful lanes of the center, you will admire the famous Arethusa source, of mythological memory, facing the sea.
