

Visit of Sarnano

A small enchanting village in the Sibillini Mountains!

Its historic centre has the typical urban character of a Medieval castle. The warm tones of the bricks of houses and churches is the dominant element that gives unity to the buildings by making the entire historical centre a monument of exceptional value. Inside we can find churches of great architectural value and an interesting museum where admire the ancient art gallery with works by Vittore Crivelli, Simone De Magistris and Vincenzo Pagani and the Hammer Museum (unique in the world).
